🌐 LANGUAGES

English, Vietnamese

🎓 EDUCATION

Bachelor
University of Houston
08/2023 – 12/2025 | Houston
I'm a final-year Computer Science student at the University of Houston with hands-on experience in web development and digital marketing. Currently, I work part-time as a Web Developer and Marketing Assistant at the University of Houston, where I contribute to designing, developing, and maintaining web pages and promotional content.
I'm passionate about building user-friendly websites and solving real-world problems with clean, efficient code. My goal is to blend creative design with functional development to craft seamless digital experiences.

🧠 SKILLS

Web performance optimization

JavaScript proficiency

HTML5 standards

Front-end frameworks

Content Management Systems

Wordpress

photoshop

🧩 VISUAL SKILLS

Photography
In addition to my passion for technology, I also have a strong interest in the arts. Currently working as a freelance photographer, I've developed a good eye for design and attention to detail — both essential qualities for front-end development. With a blend of logical thinking and artistic sense, I believe I can create user interfaces that are not only functional but also visually appealing.

📁 PROJECTS

Nemaco company landing page ↗
The **"Nemaco Landing Page"** project is a product/service showcase website built with plain JavaScript (no frameworks), designed to deliver fast loading, a modern interface, and optimized conversions. The layout follows a clear structure: **hero → benefits → features → testimonials → CTA**, styled to match Nemaco's brand identity. Smooth micro-interactions are implemented using **IntersectionObserver** and **requestAnimationFrame**.

weather app ↗
This Weather App is a sleek, lightweight web application built entirely with **vanilla JavaScript**—no frameworks or libraries required. It fetches live weather data from the **OpenWeatherMap API**, delivering accurate and up-to-date weather conditions right to the user's browser

PROFESSIONAL EXPERIENCE

Web Dev

Student worker

04/2025 – Present | Houston

Currently working as a student worker for the University of Houston's web development team. I manage and update websites through the university's custom CMS. In addition, I assist the Student Center's marketing team with digital content and promotional strategies
